ACCELERATING TECHNOLOGY & SOFTWARE APPLICATIONS TOWARDS THE FUTURE OF SAFE, CONNECTED & INTELLIGENT MINING OPERATIONS

MiningTech North America Conference & Exhibition is firmly established as **international mining technology, innovation, AI, digital transformation & clean energy exhibition**, bringing together the entire mineral resources value chain to Vancouver, BC.

As the **minerals demand** essential to the **global energy transition** is surging and the **sustainable practices** are in the spotlight, the **mining industry stands at a transformative juncture of structural changes**, where **technology is the key** to ensure the industry delivers on this **strategic opportunity** of the energy transition.

Technology is fuelling the mining revolution in exploration, excavation, material handling, concentration & refining, energy storage & use, logistics and recycling.

Unlocking the full potential of a mine and improving mining & minerals operations, requires the **integration of technologies across various stages of mining** – from exploration to recycling, in order to maximize operational efficiency, reduce costs, improve safety across the entire mine lifecycle, boost performance & deliver value to all stakeholders.

Position your company at the forefront of the mining & mineral resources industry, alongside **35+ exhibitors** and meet with **700+ key decision makers, qualified buyers and industry professionals who are actively seeking projects, products, technologies and solutions that will accelerate the era of smart & safe mining in North America, and beyond.**

MiningTech North America is held in **Vancouver, BC** to connect global companies, governments, technology, service & solution providers via **personalised networking platforms, 1-2-1 meetings, social events & knowledge sharing for new partnerships & business opportunities.**
