ACCELERATING TECHNOLOGY & SOFTWARE APPLICATIONS TO DRIVE THE NEXT GENERATION OF SAFE, CONNECTED & INTELLIGENT MINING OPERATIONS

The MiningTech North America Conference & Exhibition is firmly established as the region's **leading international platform for mining technology, innovation, AI, digital transformation and clean-energy solutions** — bringing the entire mineral resources value chain together.

As demand for minerals essential to the global **energy transition** accelerates and sustainability expectations intensify, the mining sector is entering a decisive period of **structural transformation**. **Technology now stands at the centre of this shift**, enabling the industry to seize the strategic opportunities created by the global transition to low-carbon energy systems.

A new **mining revolution** is underway across **exploration, excavation, material handling, concentration, refining, energy storage, logistics and recycling**. **Unlocking the full potential of a mine** — and elevating performance across minerals operations — **requires integrating advanced technologies throughout the entire mining lifecycle**, from exploration to end-of-life recovery. This integration maximizes operational efficiency, reduces costs, enhances safety, boosts productivity and delivers value to all stakeholders.

Position your company at the **forefront of the mining and mineral resources industry** as it undergoes a **major digital transformation** toward a sustainable future — powered by investments in advanced technologies and breakthrough innovations. Join **35+ exhibitors** from across the mineral resources ecosystem and connect directly with **900+ key decision makers, qualified buyers and industry professionals** actively seeking **projects, products, technologies and solutions** that will accelerate the era of smart, safe and high-performance mining in North America and beyond.

Held in **Vancouver, BC**, MiningTech North America connects **global companies, government leaders, technology innovators, service providers and solution experts** through personalised **networking platforms, 1-2-1 meetings**, and high-level social events designed to **unlock new partnerships and business investment opportunities**.

WHAT TO EXPECT

STRATEGIC CONFERENCE & DISCUSSIONS

Our industry leaders provide new perspectives, share cutting edge knowledge and insights to understand the rapidly changing industry.

Panel discussions, keynote & premium presentations or fire side chats present a perfect platform for more intellectual discourse. Moreover, conversations with other like-minded individuals provides a great opportunity to exchange viewpoints and foster new business contacts.

EXHIBITION FLOOR

At MiningTech, the exhibition floor provides attendees the perfect opportunity to discover the latest innovations, projects & solutions and experience the cutting edge technological gadgets and applications in person.

Speak to companies CEOs and discuss the feasibility of new technologies for the future of mine operations & sustainability. At the same time witness how latest innovations can be applied to enhance various processes in the mining sector, in ways never even previously thought possible.

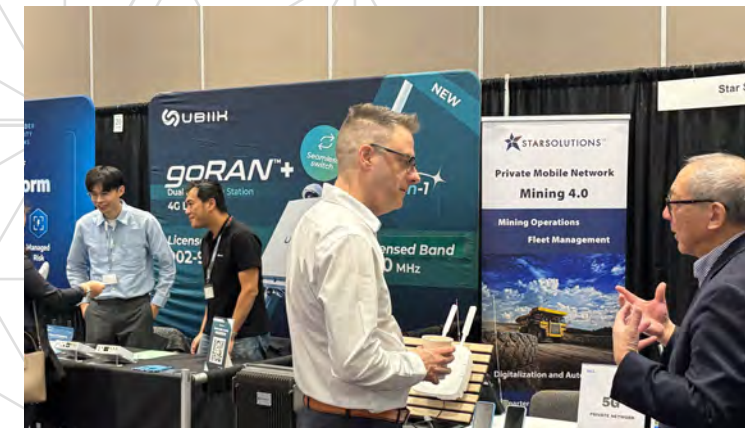

NETWORKING MEALS & EVENING DRINKS RECEPTION

Food and drinks always make excellent conversation starters. Hence MiningTech Conferences & Exhibitions devote substantial time to create the perfect environment for relaxed, casual networking meals and drinks.

With no set time limit on how long each meeting should last, attendees can freely mingle and discover new opportunities and contacts. The team is also on site to match make attendees based on their common business profiles or objectives.

1-2-1 MEETINGS

Undivided one to one attention is a tried and tested networking method. They can be a great platform to have confidential, direct and targeted conversations. MiningTech Conferences & Exhibitions, with the help of the virtual business matching tool or on site staff introductions, facilitate such networking opportunities.
